

## BASQ EXAMPLE

Calcetines Mingo is a Spanish company located in Burgos. This company supplies 25% of socks demand in Spain nowadays.

This company manufactures socks from recycled plastic bottles. The company uses advanced recycling technology to convert plastic into yarn, which is then knitted into high-quality socks.

This initiative has a positive impact on the environment, as the reuse of plastic bottles reduces the amount of waste that ends up in landfills and the oceans. In addition, by reducing the amount of new plastic produced, the demand for oil is reduced and the emission of greenhouse gases is reduced.

Mingo Socks is a company committed to sustainability and environmental protection. Its focus on the reuse of plastics is an excellent way to reduce waste and contribute to the creation of a cleaner and healthier world.
